Wednesday, May 21, 2025

Handling from Behind your Dog *with Tuulia*

Tuesday, May 20th, 8:30 am-12:00 pm

Dog's are being bred for fabulous speed which puts the human behind. This workshop will give you the tools to still effectively handle when you are behind the dog. Skills and techniques taught are the rear, tandem, flick, and lap turn. Learn which one is the most effective when handling your dog from behind. Distance handling will be included. Contacts and weaves might also be involved.

Keeping the Connection *with Timo*

Tuesday, May 20th, 8:30 am-12:00 pm Keep the connection with the 3 C's: Connection, Commitment and Cue. This workshop will be sequencing with basic handling techniques focusing on maintaining the connection, understanding the 3 C's and the dog's line, an essential ingredient to effective handling. The workshop will include jumps and tunnels.

Handling Ahead of your Dog *with Tuulia*

Tuesday, May 20th, 1:30 pm - 5:00 pm

In this workshop, you will focus on handling in front of your dog. Skills and techniques to be taught are the front cross, blind, reverse spin, false turn, and flip. Great tools which are needed when handling your dog in front and from a distance, Contacts and weaves might also be involved

Distance and Layering *with Timo*

Tuesday, May 20th, 1:30 pm - 5:00 pm Distance and layering have become necessary as courses continue to evolve. This will give the handler the skills needed when handling from a distance, while understanding the dog's and handler's lines, this is advanced course work, with all obstacles.

Young Dogs *with Tuulia*

Wednesday, May 21st, 8:30 am-12:00 pm

This popular Young dogs workshop will work on sequencing with basic handling techniques using jumps and tunnels. We will continue to build drive and obstacle focus, while helping the dog learn to follow the handling. Dogs and handlers will be challenged at their level.

Challenges in Short Sequences *with Timo*

Wednesday, May 21st, 8:30 am-12:00 pm

In this workshop expand your skills by working in short sequences with both handling and obstacle challenges. This will include discriminations and either/or. This is an advanced level workshop which might include all the obstacles.

Handling S Lines *with Tuulia*

Wednesday, May 21st, 1:30 pm - 5:00 pm

This jampacked workshop will consist of learning advanced S-line techniques then sequences using these techniques from a distance using jumps, tunnels and weaves. S-line techniques include the German, Running on the dog's line (ROTDL), Forced Front or the In-in, Whiskey, and Japanese.

International Handling *with Timo*

Wednesday, May 21st, 1:30 pm - 5:00 pm

The name says it all! This is international coursework with all the obstacles. For those participants who are looking at competing on international courses.
